## SIEMENS SERVO 300/300A VENTILATOR

- Patient Range Selection - Adult/Pediatric/Neo-natal
- Supported and Controlled Ventilation Modes
- User adjustable trigger sensitivity
- Automatic Switch from Volume Support to Pressure
- Extensive Flow range 0.1 – 3000 ml/s
- Automatic Emergency battery backup
- 100 % oxygen breaths for suction procedures
- Flexible positioning around patient
- Customisable respiratory patterns for fully flexible therapy
- Set parameter guide
- Auto mode available in 300A

### Graphics Display (Optional)

The information display further enhances your abilities to evaluate and to flexibly customize the ventilation to the patient's specific requirements. All changes in respiratory status of the patient are displayed and further adjustments can be made and monitored.

### User-customizable displays

Single-knob, menu-driven operation is simple, yet it allows full customization of data presentation and parameter selection. Waveform and loop axes can be changed, screen layout customized, measurement units modified.

### Key Features

- Multiple display facilities
- User-customisable data presentation
- Context sensitive dialogues
- 3,6,12,24 hour trend displays
- Calculation of lung mechanical parameters
- Single knob icon driven control
- Clear non reflexive display
